PROJECT “AGSC” ARE:

RESPECT,

EDUCATION,

FOOTBALL,

INTEGRATION.

ADVENTURE AND SCIENCE

Football itself is not the main purpose of the project - it is only a means to create a tolerant environment, where other people's cultural values are mutually respected. Football gives us the opportunity to meet each other in a given place and time, in order to explore Gdynia together, to learn about the city's rich maritime and Kashubian heritage, and to teach young people correct attitude towards each other, regardless of one's core values, skin colour, or native customs.

GDYNIA CITY:

Gdynia is a coastal port city situated by the Baltic Sea, the Gulf of Gdańsk in Pomerania, being part of the Tri-City (together with Gdańsk and Sopot). It received city rights in 1926. Gdynia is one of the youngest and most modern Polish cities, it has been built to provide Poland with another access to the sea. Although its history is quite short, it has witnessed II World War and probably the biggest national tragedy of the twentieth century in Poland. On 17 December 1970, the communist government issued orders to shoot to their countrymen - the youth and workers who were on their way to schools and workplaces at that time. 19 people aged 15 to 35 were murdered, and more than 1,000 were injured from gunshots of the People's Army of Poland and militia.

Currently Gdynia is a city with a beautiful yacht marina and many attractive and new business and sports venues. A beautiful beach located in the very city centre, a multitude of bars, restaurants and discos, as well as an undoubtedly attractive Gdynia Aquarium, allures plenty of tourists, even in winter. For those who like to immerse themselves in a dream, a visit to the picturesque Orłowo District is a must. There, whilst walking on the wooden pier, you will admire a beautiful view of the cliff and visit a charming Promenade of Queen Marysieńka as well as the Żeromski House.
